

# NEWARK KIT CAR FESTIVAL CELEBRATES 25 YEARS

Starting way back in 1982 the show was then called The Alternative Car Show. We have now reached the 25th year of promoting the Kit Car Industry. Times have changed but Newark has retained its unique character the show for the summer, offering something for everyone.

Inside the modern purpose built exhibition hall the Manufacturers display their latest models, alongside car related trade stands. A fabulous celebration of the kit car in all its forms. Including cars for the track, sports cars, exotic cars, off roaders, period cars and every day cars.

One of the star stands at last years show was that of DC Supercars, this year they are out to impress again with their biggest display of Lambo replicas. Look out for their V12 version. DC Supercars are UK's ONLY Lambo replica manufacturer that offers a build manual. They are also the UK's ONLY Lambo replica manufacturer to have a fully finished road legal demonstrator car, in fact they have two!

The list of Exhibitors is growing. Among Manufacturers who have already booked are Auto Speciali who can build you the Sportscar of your dreams. For Seven styled replicas visit MNR Racing and MK Engineering cars that are equally at home on the road or on the track. Beauford Cars with their classic two door open tourer. A company making its first appearance at Newark is Spire Sportscars with their fabulous GT.R with its Le Mans style body. Sebring International will have three models on display, the SX, TMX and Exault. If your passion is the Cobra Replica then make sure you visit the AK Sporstcars Stand, they will have their new hard top demonstrator.

Quantum Sportscars will be displaying the Extreme, a lightweight two seat sportster. Front engine, rear wheel drive. Unashamedly of Lotus 7 inspiration, but offering refreshing styling and an integrated design of chassis and suspension.

Outside there is a vast display of club and individually owned Kit cars, representing over 25 years of past and current cars as well as `one` off designs.

Further trade stands and an Autojumble Village gives you a great opportunity to source those vital parts and accessories you need.

If you are in the market for buying or selling a pre owned kit car then check out our popular cars for sale area.

Join us for Newark 07 on Saturday 16th and Sunday 17th June on the Newark & Notts Showground.

The show is open from 10am -5pm on the Saturday and 9.30am - 4.30pm on the Sunday. Visitors with a qualifying car, who are exhibiting their car inside the showground, can get access to the showground from 7.30am.

Day Admission is £8 for Adults and £3 for Children (5-15) Kit Car drivers get in free. Parking is free with more than enough hard-standing for all. Camping is also free Friday and Saturday Nights only, no need to book.
