Welcome to Newark 09

Welcome to Newark 09 we have a fantastic show lined up for you. Inside the George Stephenson main Exhibition Hall there are stunning displays from leading Kit Car manufacturers along side them we have some excellent trade stands.

This years we have a definite Italian feel in the main exhibition hall, enhanced by two Manufacturers new to Newark with their Ferrari and Lamborghini Replicas. DNA Automotive with their Toyota MR2 Super Car Kits and Extreme Sportscars with their stunning authentic replica sport cars. Look out for the replica Mercedes CLK DTM AMG based on the 2003 German Touring Car championship-winning CLK, like the one owned by Wayne Rooney. See if you can spot the difference between a genuine Lamborghini Murcielago and

a Replica. We will have the real thing and the replica nose to nose at the show we are guessing you will not be able to tell which is the genuine one. The replica is based on Toyota MR2 Mk2. Making it's show and public debut is the Extreme 430 and also don't miss their exo-car based inspired by the Ariel Atom. Another car making its public debut is the Sylva Spectre from Sylva Autokits.

We are also featuring 'Classic' Kit Cars, celebrating the long history of the Kit Car. We are collecting together kitcars that are no longer in production. The display will reflect our heritage, models from the 'classic' era the 50's, 60's, 70's, 80's and the 90's.

The kit car clubs will be out in force as usual having a great time. They will once again be displaying their much-loved

vehicles, ready to talk to anyone interested in what it is like to own a kit car. There will also be displays of Classic Cars.

There will be many Mini based kit cars with their owners celebrating the 50th birthday of Alex Issongonis's classic design. We are aiming to collect them altogether and take a photograph to mark the event.

There are also a huge number of trade stands as well as an Autojumble village. So if you are looking for some parts or tools to help complete your project or enhance your car then you can enjoy yourself browsing round the stands.

If you are looking to buy or sell a kit car or classic car then don't miss our cars for sale area.
